

Singapore Medical Shop Search

Introduction

An online website for Singapore where customers can find medical shops, compare medical item's prices among the shops in Singapore, check availability of medicines on specific stores, as well as buy medicines online and had it delivered.

This will bring convenience to the customer as they can easily compare the prices and pick the lowest price. Also, they can check whether the medicines are available on that specific shop before going down, which can prevent the user from making unnecessary trip.

Expected List of Features

- **Find medical shops**
So that customers can easily know the nearest medical shops near them, instead of having to use google map which the customers might not know some shop actually sells medical items
- **Compare medical item's prices among the shops in Singapore**
Customers can pick the cheapest price for those who wish to save some bucks, which is the same product but sold at slightly cheaper
- **Check availability of medicines on specific stores**
The customers can check whether the medical items they want are available at the shop before going down. This can save the customers from unnecessary trip to the shop by checking stock availability first.
